THIRD PARTY DOOM SEEN
Leader's Illness Blasts Hopes
Follette Was Looked on as Only Standard-Bearer for Ramp Movement
In Health Will Alter Course of Insurgents in Coming Campaign

BY ROBERT BARRY
[REUTERS' DISPATCH]
WASHINGTON, March 27.—An editorial here today that Senator William L. Follette of Wisconsin was ill of pneumonia at his home was the most important development in Presidential politics since William G. McAdoo was named as an attorney for Theodore Roosevelt.

It was a blow to third party hopes which was regarded by observers as sounding the death knell of the movement. Mr. Follette's condition was announced today by his physician. His illness was not alarming, yet, it was considered with his health in mind in June—it was a serious matter in the political arena this campaign.

Mr. Follette was expected to participate in the National Presidential primaries in March and South Dakota by his own party.

POINCARÉ'S TASK HARD
Cabinet Make-up Is Problem
Consolidation of Portfolios Seen as Part of Economy Plan
Premier Tells Newspaper Men "It is Going to be a Long Job"

[BY CABLE AND ASSOCIATED PRESS]
PARIS, March 27.—M. Poincaré, despite the fact he is finding the work of setting up a new government harder than he expected and has, therefore, been unable to complete it, informed President Millerand this evening that he accepted the task of reuniting the Republic and constructing a ministry.

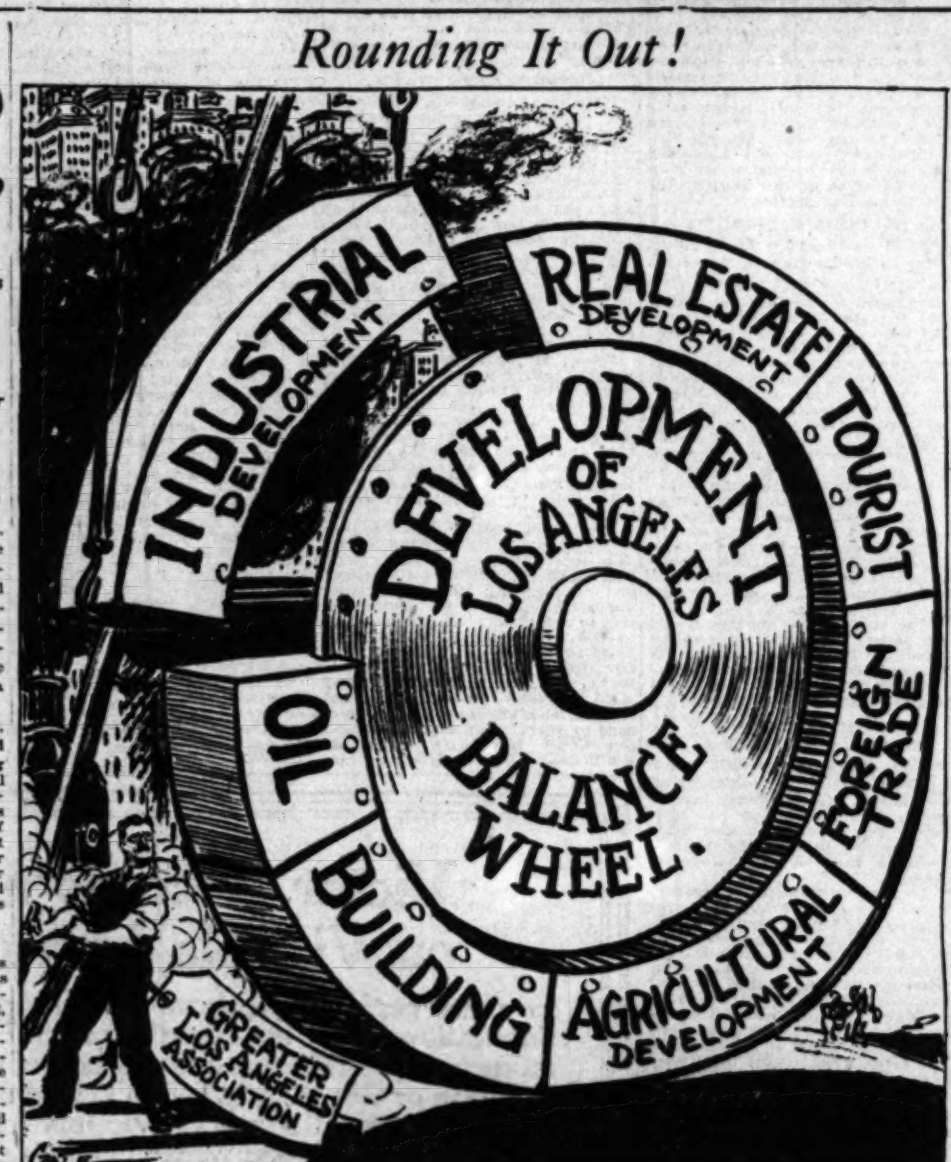

After a morning of fair sailing, M. Poincaré this afternoon grappled with the difficult task of organizing his Cabinet to fit new political situation resulting from the Chamber's attitude on the pension bill and to accord with the policy of economy for which he had fought so hard for weeks in the Chamber and Senate. His conclusion after the day's negotiations was that "it is going to be long."

TO REDUCE MINISTRIES
This is as far as the Premier has committed himself regarding his actual plans. From his negotiations with members of Parliament, however, the impression has developed that he is going to inaugurate in the formation of his Cabinet economy has promised the reduction of the number of ministries to seven or thereabouts and the suppression of most of the undersecretaries of State. The fact that M. Poincaré was closeted for nearly three hours this afternoon with the Ministers of War and Public Works indicates the nucleus of the new combination will be himself, M. Maginot, and M. Lacroix.

It is known that M. Maginot would like to be transferred to the interior department. If his wish is granted, M. Lacroix would be a candidate for portfolio of national defense, consolidating in one department, war, navy and the colonies.

CABINET POSSIBILITIES
There is a good deal of talk of M. Doumergue succeeding as chief. Count De Lasteyrie, who is regarded in any case as unavailable in the new Cabinet, Emmanuel Brousse, former Undersecretary of State, is mentioned as the possible successor of M. Maunoury as Minister of the Interior, while M. De Seudre is thought likely to be named for the Ministry of Foreign Affairs in the Caillaux Cabinet in 1911 is thought likely to be named for the Ministry of Finance.

RUM CHASER SINKS AFTER BLOWING UP
Crew and Dry Officials in Water Two Hours When Dory Overtakes

[BY A. P. NIGHT WIRE]
JACKSONVILLE (Fla.) March 27.—The sixty-foot converted submarine chaser Russ, owned by Sheriff W. H. Dowling and used by him in apprehending rum-runners off the Florida Coast, sank ten miles at sea this afternoon following a terrific explosion.

Sheriff Dowling, H. L. Duncan, divisional prohibition chief for Florida and Porto Rico, and members of the crew got off the Russ before she went down, but the dory in which they were attempting to reach shore capsized soon after they had started shoreward.

For two hours the officers and members of the Russ's crew, who were equipped with life preservers, were tossed about in the waves until rescued by a pilot boat Meta, which had put out to sea when the explosion was heard.

Three members of the crew were burned, one seriously. Those on the craft reached here tonight.

HUNDRED IS LANDSLIDE'S DEATH TOLL
Thousands Are Reported as Homeless from Disaster in Italy

[BY CABLE AND ASSOCIATED PRESS]
SALERNO (Italy) March 27.—More than one hundred persons are known to have perished in the landslides which occurred yesterday in the region surrounding Amalfi. Thousands have been rendered homeless. Many people of the region are missing, but whether they are dead, or have made their escape and are fearful of returning, cannot be ascertained tonight.

The torrential rainfall continued today making more acute the plight of those left without shelter. The landslide has left Amalfi virtually surrounded by debris. Everywhere is to be seen the wreckage of houses and huge rocks and uprooted trees which were in the path of the moving earth.

When a tract of 600 yards, the noise resembled that of an eruption of Mount Vesuvius. Therefore, there was timely warning to many of the inhabitants and the visitors in the hotels to escape.

KAHN BACK HOME FROM WASHINGTON
[BY A. P. NIGHT WIRE]
SAN FRANCISCO, March 27.—Julius Kahn, Representative in Congress for the Fourth California District, arrived home from Washington today on board the liner President Polk. His health, which had forced him to leave his duties in Washington, was greatly improved by the trip, he said. Kahn expressed the belief that the proposed naval base at Alameda would be accepted by Congress despite unfavorable action by a House committee.

CARDINALS RECEIVE HATS AT FINAL SOLEMN RITES
Thousands of Americans in Throng Witnessing Gorgeous Pageant in Historic St. Peter's

[BY CABLE AND ASSOCIATED PRESS]
ROME, March 27.—The final ceremonies of elevating Archbishop Mundelein of Chicago and Archbishop Hayes of New York to membership in the highest council of the Roman Catholic church took place this morning in the right transept of the basilica of St. Peter's, when Pope Pius gave to them their broad-brimmed red silk hats, symbolic of their new rank of cardinals.

The ceremonies were resplendent with medieval pageantry. Fully 10,000 persons attended the function. Americans forming a great majority of the throng. Many persons, unable to obtain admission to the actual scene of the ceremony, crowded the balconies and the roof of the basilica, and the spires of the city.

RED HAT SYMBOL
This morning's solemn investiture with the red hat was merely a time-honored custom, the same symbolic headpiece being used for both the American prelates. The red hats which they actually will wear, but will be taken back by the prelates and suspended by golden wires over the high altars in their respective cathedrals, and also formally assigned to them their titular churches.

Shortly after the ceremonies of today had ended, Pope Pius gave the red hat to the new cardinals. The Associated Press through Cardinal Gasparri, Papal Secretary of State, the following statement:

"The holy father, in raising two new cardinals, has in mind not only the personal merits of the new cardinals, but also the generous activities of the great American people on behalf of the suffering peoples of the world, thus promoting a spirit of peace and fraternal good will among the nations."

Punctually at 9:30 o'clock the two new cardinals marched slowly toward the altar of Petronillo, where they took the solemn oath of office.

As the American prelates passed the vacant papal throne the Bistine and the climate and announced the Watchman's campaign.

There was a brief pause. Then, "I say," exclaimed the recent cardinal, "the honor of the Watchman's campaign is mine. I think, despite his showing in the election, that he ought to carry California. But Coolidge has the nomination; he has it cinched."

Cheewing-Gum Magnate Says Senator is Getting Nowhere in Campaign

"Coolidge is a Cinch for the Republican Nomination," He Adds, Bluntly

BY THE WATCHMAN
William Wrigley, Jr., one of the principal backers and financial contributors to the Presidential campaign of Senator Hiram Johnson, has withdrawn his financial support from the Johnson candidacy and is no longer associated with the California Senator's campaign.

Mr. Wrigley, talking over the wireless telephone yesterday from his home on Catalina Island, not only confirmed persistent reports that he has left the Johnson camp, but asserted his conviction that President Coolidge "has the nomination cinched."

More than a month ago, responding to a question from the Watchman as to his attitude toward Senator Johnson's Presidential aspirations, Mr. Wrigley asserted that he had not parted from the Senator's candidacy, but added the significant word, "yet." Just when Mr. Wrigley did part from the candidacy of the man whom he still regards as a personal friend, and a hopeful candidate, the chewing gum magnate did not say.

"COOLIDGE CINCH"
He did say, however, without equivocation and with the customary Wrigley bluntness of speech, "as far as I can see, Coolidge is a cinch for the Republican nomination. Mr. Johnson is my good friend, but I would like to see him President, but I don't think he can get the nomination because he is getting nowhere with his candidacy."

Although his personal feeling for Mr. Johnson disposes him favorably in the Senator's behalf, Mr. Wrigley said that he has a high regard for President Coolidge and believes that Mr. Coolidge is not only a good President now, but will make a good President after his nomination and election.

He denounced as "pure bunk" assertions that he would manage Senator Johnson's candidacy in Illinois, Wrigley's home State, and drew attention to the fact that he is on the Republican ticket in Illinois, and that he is a member of the Republican National Convention.

"I am interested in politics in Chicago, because that's my home town," he said, "but I am much more interested right now in Catalina Island and Southern California." At this point Mr. Wrigley shifted the conversation to the rain and the climate and announced himself as one of the most enthusiastic boosters in the State. He was persuaded that the recently returned to political matters.

"Yes, it is true," he admitted, "that I have declined to make any further contributions to Senator Johnson's campaign." He then hastened to add: "But Senator Johnson has never asked me to contribute. He's a friend of mine. I think, despite his showing in the election, that he ought to carry California. But Coolidge has the nomination; he has it cinched."

WHERE'S HITCHCOCK?
Mr. Johnson, in brief, should attempt to rally his personal following in an attack upon the President he will not find Mr. Wrigley with him in the undertaking. "I am a good Republican," said the owner of Catalina Island, "and I like Coolidge. I think he is a fine man. I shall support the Republican nominee with all my heart."

There was a brief pause. Then, "I say," exclaimed the recent cardinal, "the honor of the Watchman's campaign is mine. I think, despite his showing in the election, that he ought to carry California. But Coolidge has the nomination; he has it cinched."

TABLES MAY BE TURNED ON DEMOCRATS IN OIL QUIZ
Senator Spencer Proposes Inquiry Into Leases in Wilson Regime; Al Jennings Testifies

BY JAMES O'DONNELL BENNETT
[EXCLUSIVE DISPATCH]
WASHINGTON, March 27.—Republican party chiefs and certain Republican Senators on the Teapot Dome investigating committee are preparing to strike back at Democratic accusers of their party. Their first object of attack will be oil leases granted by the late Franklin K. Lane when he was Secretary of the Interior under President Wilson.

Referring to oil leases now under investigation, Senator Spencer, Republican, Missouri, told the Teapot Dome investigators today that "the situation was exactly duplicated under the late Secretary Lane. It is certainly not fifty-fifty," the Senator from Missouri added, "and the Democratic party is quite as much involved as the Republican party, if there is any involving of either."

SUBPOENAS ISSUED
As the first step in this new investigation Senator Spencer has issued subpoenas for: John Walsh, attorney for minority stockholders in the Republic Oil Company and brother of Spencer's colleague on the Teapot Dome Committee, Senator Thomas Walsh, Democrat, Montana.

Edward L. Doheny, millionaire oil operator holding valuable oil leases in California, who will be questioned about his contributions to the Democratic party's campaign funds. Wilbur Marsh, former treasurer of the Democratic National Committee.

George T. White, former chairman of the Democratic National Committee. Other subpoenas are contemplated by Spencer. As a result of his action, there is excited talk among Democratic Senators about removing him from the Teapot Dome investigation, and the fight may go to the Senate floor.

AFTER THE FACTS
"I want facts," is Senator Spencer's reply to rumors and threats. "I want to develop facts not yet developed. These facts the public is entitled to know. The investigation can be concluded speedily. My feeling is that the public is severely critical of the time and expense of this and other investigations. If it can be brought out without unnecessary delay."

This new turn of events got its start this morning from a newspaper clipping three inches long. After a long and hard fight, once again, Senator Spencer, once again, was making a statement and went home, where he denied himself to inquirers.

Preparations for the issuance of a statement were under way at the White House and also at the Department of Justice. Then Secretary Hughes had a conference with the President and the prospects of an announcement disappeared. The Attorney-General also dismissed the matter, saying that he was making a statement and went home, where he denied himself to inquirers.

BEFORE PRESIDENT
President Coolidge is known to have had the situation surrounding Mr. Daugherty's tenure of office in mind for nearly a week after a lapse in attention given to it because of a feeling that the Attorney-General should be given an opportunity for a hearing before the Senate committee investigating his conduct in the Department of Justice. With each day of testimony before the Senate committee, the demand that the President resign has grown more insistent. It has come from some of the President's closest advisers and has been supplemented by numerous letters received at the White House.

Equally insistent has been the demand from others close to the President that Mr. Daugherty be allowed an opportunity to weather the storm. Letters to this effect (Continued on Page 2, Column 4)

CONGRESSMAN IS INDICTED
Representative Langley of Kentucky and Five Others Named in Liquor Conspiracy

[BY A. P. NIGHT WIRE]
WASHINGTON, March 27.—Indictments charging Representative John W. Langley, Republican, Kentucky, Millard F. West, a former deputy commissioner of internal revenue, and four others with conspiracy to interfere with the operations of the government were returned today by a Federal grand jury.

Langley alone was named in one indictment, another was against him, Russell M. Sackett, a prohibition agent in Pennsylvania; Ben L. Moses and Harry Sattler, co-partners in the Union Drug Company of Pittsburgh and Sidney Reis, described as a procurer of liquors in large quantities.

The conspiracy section of the Criminal Code prescribes punishment of not more than two years' imprisonment, or fine of not more than \$10,000 or both. **VETERANS' BUREAU CASE** Langley, who is chairman of the House Buildings and Grounds Committee, is serving his ninth term in Congress. He is said to have been one of the two members of Congress referred to in the report of the Chicago grand jury which investigated alleged Veterans' Bureau frauds. Mr. Sattler was charged in testimony with accepting bribes for improper use of official influence. On the floor of the House, Langley and Representative Zihlman, Republican, Maryland, recently declared they had unofficial information that the Chicago grand jury's report was directed at them. Both protested their innocence of any wrongdoing and demanded immediate investigation of the charges. No mention of Zihlman was made in today's report. Reference, however, was made (Continued on Page 2, Column 4)

ing the Zionist dinner, he had said to a gentleman substantially what the clipping set forth. Both Walsh and Spencer then blew up and apart, the Senator from Montana declaring with much acerbity, that if the Senator from Missouri had any evidence that this same thing occurred under Secretary Lane, he should produce the witnesses.

"In my own time and in my own way I will produce the witnesses," said Senator Spencer. "As to the information which has come to me, I am not authorized to give any satisfaction, when it is authenticated, the testimony will be produced before the committee."

AWAITS COMPLETION

Walsh, continuing incident about the late Secretary Lane, demanding whether Spencer expected to establish "that under Lane the same things occurred."

"I will wait," said Spencer, "until the information is complete."

Asked whether he still asserted the truth of his newspaper interview, he replied: "I do not deny it, nor have I the information," here he broke off angrily but soon continued:

"The Senator knows very well that in an investigation there are many steps and it is both unfair and improper to ask a member of this committee as to those steps. An illustration of that would be the information that came to me, which I have not verified, that the Senator from Montana in a personal conversation with Mr. Doherty in his private car here, before the examination took place, elicited certain facts which he said he would bring out and certain facts which he said he would not bring out. Now, fair would it have been of me to interrogate the Senator on that question until he had made up his mind as to what the result of it all was?"

SHARP DENIAL

Walsh's eyes glittered and he replied in three bites, called in the grammar of Senator Walsh, "The Senator will tell you that he never saw Mr. Doherty's car, nor ever was in it. That is the way I answer the inquiry and the statement I hope the Senator from Missouri will be equally explicit about this statement attributed to him."

Senator Spencer: I certainly will when the time comes, called in the grammar of Senator Walsh: It is a good time right now.

The audience, which "sided" the rear of the Senate office building's caucus room, broke into applause. A deputy sergeant-at-arms passed along the front line of applauders and promised them if such a demonstration were repeated the room would be cleared.

Senator Spencer flushed and strode away to get out his subpoena for Thomas Walsh's brother John and the rest.

So a new line of investigation is opened.

SIDELIGHT ON STATE

At Jennings' testimony was perhaps more valuable as a sidelight on the political state of mind in untamed Oklahoma than as proof of transaction, which he had heard from Jake Hamon either were actual or would be actual some day.

His narrative dealt with things which his friends, the deceased Republican national committeemen from Oklahoma, claimed he had done and would do for many of the most conspicuous high steps in the Republican party.

But all these alleged benefactors were planned with an eye to what Jake Hamon would ultimately do for himself. It was considerable, for he once said to Jennings—so Jennings testified under oath—"I am going to be the biggest man in the United States before I finish my career, if you, as Governor, will get back of me I will put a couple of hundred thousand dollars behind you. We have an association together here of the oil men."

"And he named," added the witness, "Mr. Condon and Harry Sinclair and many others that I know. Finally he spoke of the 3-cent tax

on oil in Oklahoma and he wanted that removed."

SEES SOMETHING ELSE

From the depths of his profound knowledge of men who, as he put it, "ran the testimony given by the witness," Mr. Jennings was moved, he testified, then to say to Mr. Hamon, "there is something else, Jake."

There was. For Hamon replied, "You will disrupt the Democratic party to such an extent that I can carry Oklahoma for the national Republican ticket."

"And he did," added Mr. Jennings beamingly, but it was done without the employment of Mr. Jennings' disruptive power.

"Before the Chicago convention which nominated Warren Harding, he ran the testimony given by the little freckled man who once, with the aid of the usual armament, could put terror into a traitorous of Congress," Hamon told Jennings that Harding would be the nominee and that he (Hamon) was going to put up the money.

"Money talks," added Hamon. "There is not anybody above it."

PENROSE NAMED

The witness, still smiling amid his recollections of the dead Oklahoma warwick's confidences and counsels, said:

"Jake said he had talked to a Senator in Pennsylvania—Boies Penrose—would have Penrose's support and would name the President of the United States. I was naturally anxious to know who he would name and asked him if it was Wood."

It was not. "For further along the witness said:

"Hamon did not like Wood. He said Wood was too much impregnated with the damn-fool honesty of Theodore Roosevelt."

Jennings drew nearer and nearer to the Harding hour in the Chicago convention and this was his story:

"I received a telegram from Mr. Hamon when he was in New York, wanting me to meet him in Chicago, which I did. The convention was on. He said he wanted somebody that he could depend on that would stay with him in a tight place. I was glad to be there. I wanted to see the manipulation. I did not take any part in it, it did not even stay with him, but went to a room in one of the hotels."

COST HIM A MILLION

"He told me that Harding would be nominated the next day and it had cost him a million dollars. He said he had put up \$250,000 to Boies Penrose and in the convention that day he brought out in some way—I will not be perfectly clear about that—that it had been made up his mind as to what the result of it all was."

Walsh's eyes glittered and he replied in three bites, called in the grammar of Senator Walsh, "The Senator will tell you that he never saw Mr. Doherty's car, nor ever was in it. That is the way I answer the inquiry and the statement I hope the Senator from Missouri will be equally explicit about this statement attributed to him."

her any further than that it sounds like that.

Dill: How much? Jennings: \$25,000. Dill: Anybody else that you recall?

Money was not that I recall. Jennings was used indiscriminately with the Oklahoma delegation. Oh, yes; I think—yes, I know he said it, cost him, like me, to get the New York delegation.

Dill: Did he say who got it for him?

Jennings: I did not ask him, no. I don't think he gave the names there.

He did not say how much it cost?

Jennings: No, sir.

The former, or reformed, clearer of transcontinental passengers, told the Senators that he wanted to be "perfectly frank" with them and hence was compelled to say that he did not believe in Jake's methods.

He described the degree of intimacy between him and Hamon as "very close" and in a subdued tone said this was its source:

"The only reason that I so fully liked him and adhered to all to his friendship was because he was the only lawyer in the East who had extended his hand to me when I came back out of prison. I never forgot that."

"I don't believe in talking about anybody; never had," Jennings said. "I would be very reluctant to give evidence before the Senate committee. I mean that; I have seen so much of it. But I believe our country really needs every help it can get at this time."

In response to a question from Senator Burton, the witness said Hamon told him that carrying Oklahoma for Harding cost him "about half a million."

service division of the wartime air service.

Senator Wheeler interpreted Scaife's testimony to call for M. S. Daugherty, the Attorney-General's brother, president of the Midland Trust Co., and when he did not appear, moved that the committee treat him as a witness in contempt of the Senate. Papers were ordered prepared.

Chairman Brookhart said subpoena servers were after witnesses who might give the inquiry a new turn.

DAUGHERTY'S STAND

Atty.-Gen. Daugherty's reply to the committee's demand for access to the files of the department set out a series of conditions under which he would extend the desired permission. He said in part:

"The effect of withdrawing separate papers or documents from a cabinet officer's files to a committee piecemeal will be misleading."

"To permit a general investigation of the department to withdraw from the files such papers and documents as the committee might desire would lead to endless confusion."

"Some of the names mentioned in your letter appear in certain files of the Bureau of Investigation. These files are full of confidential matter and of sensational statements regarding departmental affairs had hampered work and in some cases have been used for criminal purposes."

Mr. Coolidge, regarding this as a matter requiring consideration of the country really needs every help it can get at this time."

In response to a question from Senator Burton, the witness said Hamon told him that carrying Oklahoma for Harding cost him "about half a million."

TRIANGLE WATER HEATER
AUTOMATIC

Why heat cold water over and over again? It is much simpler to heat it once and keep it hot.

Put hot water in storage the Triangle way. Keep it hot ready for use. The Bunsen burner, playing directly on the highly efficient copper heating element, maintains the temperature. For moderate quantities of hot water the main burner rarely lights, but when larger quantities are needed this main burner flares and restores the tank temperatures quickly.

The Triangle way is more economical, yet more efficient. It gives you hot water all day, day and night.

Ask your plumber about the Triangle, or if you prefer, write us.

QUIZ DEVELOPS ON SWING BILL

Cabinet Men to be Asked Reason for Attack

Junkies by Lobbyists Also to be Scrutinized

More Weeks of Inquiry Seen Ahead of House

(EXCLUSIVE DISPATCH)
WASHINGTON, March 27.—Three members of the Cabinet have been called to appear in person before the House Aged Land Committee to give in detail the reasons for the adverse report which they made as members of the Federal Power Commission on the Swing-Johnson bill for the Boulder Canyon dam in the Colorado River.

The first witness will be Secretary of War Weeks, who will appear at 10 o'clock; Secretary of the Interior is scheduled to go on the stand at 11:30, and Secretary Wallace of the Department of Agriculture at 11 o'clock on Saturday morning and tell not only the name of the man who wrote the report, but why they take the attitude on this development that they do.

This development followed the reading of the report of the Federal Power Commission at yesterday's meeting of the committee. At an executive meeting of the committee it was decided to have the members of the Federal Power Commission come before the committee Saturday separately and tell all the details.

SWING ANGERED
Congressman Swing was bitter at the report of the commission and declared that they had gone much too far and wanted the chairman of the committee for writing to the Federal Power Commission as to their views on the bill. Congressman Little of Kansas insisted that the report indicated that the members of the commission were dominated by private power interests and insisted that he wanted to get at the bottom of this opposition.

Congressman Leatherwood of Utah insisted that in order to get the whole matter before the committee he wanted details of the expenditures of thousands of dollars for expenses by those who are in the swing-Johnson bill and wanted especially to get the itemized account of the junkies by which Congressmen were transported to San Diego and other western cities at the expense of the Imperial Valley water users.

END OF BILL SEEN
If the plans of the members of the committee are carried out the future hearings of the body will resemble some of the other investigating committees now active in Congress and may continue for weeks or months.

Those best informed believe that the report of the Water Power Commission has killed the legislation for this session at least and probably for all time to come. The committee will also have on stand Col. Kelly, chief engineer of the commission, and also Chief Clerk Merrill, who has executive charge of its operations.

HATS BESTOWED IN FINAL RITES
(Continued from First Page)
Choir sent its ringing tones throughout the massing of the All eyes were upon the passing prelates, whose great lamb's wool capes fell gracefully from their shoulders.

POPE ON TRIBUNE
Having arrived in the quadrangular chapel, the new cardinal sat for a few moments in deep prayer. Shortly afterwards there appeared five cardinals, especially assigned to administer the oath of office. The oath was taken by the American prelates, who stood, heads bowed, before the altar. Each solemnly promised to support the Catholic creed with his blood, if need be.

Meanwhile preparations were going forward in the main consistorial transept for the appearance of the pontiff, who was to descend from the pontifical apartments through a series of historic halls and down historic staircases. Gorgeously-dressed guards, representing several branches of the quasi-military service, were everywhere in evidence.

All the honored guests with specially reserved places had taken their seats. Marshal Foch, at the invitation of Pope Pius, sat on the tribune erected for the members of the pontiff's family.

Finally the pontiff, seated in the sedia statoria, made his appearance and was slowly borne toward the throne. When he had mounted the throne, flanked on either side by the major-domo and the master of ceremonies, the new cardinal was escorted into the presence, each by two cardinal-deacons—the Archbishop of Chicago by Cardinals Bisset and Lega, and the Archbishop of New York by Cardinals Jaquet and Billot.

SCENE OF SPLENDOR
Cardinal Mundelein first approached the throne, thrice doing obeisance as he came up the aisle. Then mounting the seven steps to the pontiff's feet, he bowed to the floor and kissed the cross on the pontiff's slipper and then the pontiff's ring. The cardinal remained in a kneeling posture. Then an attendant held the symbolic red hat over Cardinal Mundelein's head, while Pope Pius read the ancient formula in which appears the time-honored phrase, "Accipe calceum rubrum." (Accept the red hat.) As the pontiff read an attendant held at his left shoulder a lighted candle. This custom has been kept alive through the ages, although it has lost its practical utility.

When Cardinal Mundelein had been fully invested, the same ceremonial was gone through for Cardinal Hayes.

A more impressive spectacle than the investiture would be difficult to imagine. It was filled with solemnity, yet rich with all the trappings reminiscent of medieval splendor. The ensemble—the pontiff wearing his golden mitre and his flowing cape of cloth of gold; the noble guards, with their tall plumed helmets, the Swiss guards in their multi-colored uniforms, designed by the masterful hand of Michelangelo, and the Palatine guards, with their combined religious-military bearing—formed a scene of the greatest brilliance.

THIRD PARTY IS HELD DOOMED

(Continued from First Page)

Dakota where he possessed all the advantages. James W. Good, manager of the Coolidge headquarters, dealt with it effectively tonight, exposing the fallacy of the Johnson wall.

The forces which have been clamoring for a third party in the Presidential contest would never accept Johnson. His weakness with the so-called Progressive elements has been demonstrated clearly. Henry Ford might have been a logical choice, but his business judgment overcast any of his political ambitions and he declared for Mr. Coolidge.

LA FOLLETTE ONLY ONE
Senator La Follette has the head and shoulders of the radical bloc in Senate and House was thought to be the only individual, even if he would not lead the third party cause, who might lead the third party cause.

McAdoo would not and it was doubted whether he could after the Teapot Dome developments. Neither Gov. Blaine of Wisconsin, crown prince of the La Follette political family, Representative Nelson, the Senator's spokesman in the House were sufficiently well known to the masses of Nebraska to be much of an individual, even though his political thought usually runs close to that of La Follette.

Brookhart of Nebraska, a half-disappointment and Magnus Johnson and Shipstead won't do.

It has been La Follette or nothing for weeks. The plan did not contemplate the Senator's election. He would enter the field for Nebraska, the two Dakotas and Montana, and possibly, though not likely, Nebraska and Iowa. With the five states mentioned, La Follette would have thirty-eight votes in the electoral college. With the members of the Federal Power Commission from the solid South to start with, the chances were favorable to no candidate having a majority in the electoral college. The President would be thrown into the House of Representatives. There again no candidate could obtain a majority as each State would have but one vote.

EVENTS DIVIDED
The present Congress would decide the issue. In the present House the Republicans have a majority in the delegations of twenty-three States, the Democrats twenty, and five States are divided equally in their House membership. There could be no majority for either candidate.

The Senator's choice of a Vice President would determine the succession to the White House. La Follette, with his Republican bloc, could prevent an election until the Democrats agreed on a man acceptable to him. It was an ambitious program, to say the least.

The hope, of course, was not to elect a third-party President, but to bring about the selection of a greater number of "progressive" Senators and Representatives in a number of States. To do that, a personal campaign by Senator La Follette would be essential. A "front porch" campaign in Madison might fall far short.

For these reasons the Senator's illness has come as a great shock to his followers, aside from their personal concern for his prompt recovery.

CHARGE EXPLODED
Mr. Good's statement exploding the fallacy of Senator Johnson's charge of "money influence" made at St. Louis today follows:

"I am amazed at the statement of Senator Hiram Johnson to the effect that the Coolidge headquarters had made lavish expenditures in the South in an attempt to purchase the election of that State in the recent preferential primary." This statement would be serious if true, but it is not true.

"In the state of we are charged with the hiring of an army of orators and buying full-page advertisements in the newspapers." These advertisements consisted largely of letters, telegrams and statements from the Senator's former friends and supporters in California. The so-called army of orators consisted of the following: Secretary of Labor James J. Davis; ex-Secretary of the Treasury Leslie M. Shaw; ex-Gov. Harding of Iowa; Congressman Humphreys of Washington and James Knox of Indiana.

"No other speakers were sent to South Dakota and but very few residents of South Dakota took the stump in behalf of the President. The statement that the campaign had been carried on by 'the most reckless and shameless use of money' has no more justification than the statement with regard to the use of the 'army of orators.'"

"The campaign for Mr. Coolidge in South Dakota was carried on along economical lines, the speakers being largely volunteers, and in view of the unwarranted attacks on President Coolidge the campaign was conducted at a very reasonable outlay of money. All things considered, we are pleased with the result of the South Dakota primary."

PROGRESS ON REVENUE BILL

Senate Finance Committee Resumes Day and Night Sessions; Bonus Estimates Given

(BY A. P. NIGHT WIRE)
WASHINGTON, March 27.—Resuming their program of day and night sessions, the Senate Finance Committee today practically cleared up the many administrative provisions of the revenue bill.

The schedules of excise and miscellaneous taxes, most of which were revised by the House, are to be taken up immediately.

Meanwhile Democratic members of the committee spent another afternoon in an unsuccessful effort to reach an agreement on the income tax schedule, which they will offer as a substitute for the Mellon rates voted into the bill by the Finance Committee.

The surtax rates, proved the stumbling block.

Before taking up the revenue bill today the committee heard Army and Navy officers on the soldier bonus bill passed by the House with a view to determining the number of veterans who would be eligible for the insurance provision, and the average length of service of the veterans.

Army officers explained considerable work would be required to lay the foundation for administration of the proposed bill.

As a result Chairman Smoot declared, costs of administration of the measure would amount to "millions of dollars."

FAVOR HOUSE BILL
Quick action on the bonus measure is expected when it is formally presented to the committee. Republicans indicating today there was a general disposition among their group to favor the bill passed by the House against the modified insurance plan advanced by Chairman Smoot.

Democrats are expected to stand for a full cash payment option.

Democrats at their meeting this afternoon, also discussed the calling of a party caucus to bind members as to their position on the House Democrats on the Garner plan. No conclusion was reached, however.

ESTIMATES VARY
While members of the Finance Committee prepared to work out their own estimate as to the cost of the bill in the light of the dispute between government actuaries involving a difference in estimates of more than \$2,500,000, Chairman Green, of the House Ways and Means Committee, issued a statement charging "a deliberate effort to misrepresent the cost of the soldier bonus bill."

Mr. Green declared the estimate of Herbert Hens, American Legion actuary, that the bill would cost \$2,500,000,000 was misrepresented by a committee spokesman for Mr. Hens. He declared the figures of S. P. Brown, Veterans Bureau actuary, that the insurance would cost \$2,500,000,000 and the estimate of \$2,500,000,000 was put forward by Mr. Hens as the cost of the bill if the payments of the policies were not amortized but were all deferred until the end of the insurance period. Joseph McCoy, Treasury actuary, estimated the bill would cost \$4,350,000,000.

The Los Angeles Country Club ten-man golf team regained the undisputed lead in Class A in the race for the S.C.G.A. team title yesterday by defeating Flintridge's talented representatives 3 to 2 at Beverly. The two teams were tied for first place before yesterday's match.

Although Fred Wright and Arthur Thompson won the feature match for Flintridge from Everett Weaver and Clark Speira, 3 and 2, and Bud Yonkum and Ralph Reynolds triumphed 1 and 1, C. H. Palmer 1 up in the second foursome in the interests of the visiting club, Los Angeles annexed the rest of the matches. George Thomas and W. L. Kamen won from Joe Hagerman and L. R. Coffin 4 and 2; Frank Tuttle and Fred Ledlow, Jr. defeated A. W. Maine and L. Newton, 3 and 1, and John Arnell and E. K. Brown vanquished Earl Barker and H. R. Robbins, 3 up.

Windsor and Annadale have not yet played their match, postponed from Wednesday on account of rain.

MISS CUMMINGS SHINES AGAIN

Wins Invitational Tourney on Midwick Links Slices Par by Two Strokes With Card of 83

Doreen Kavanagh, Margaret Cameron Tie

BY CHARLES WEST

Demonstrating again her superiority over Southern California women golfers, Miss Edith Cummings of Chicago, national champion, made a brilliant showing in her farewell appearance in these parts by winning the invitational tournament for women held yesterday at the Midwick Country Club, scoring an emphatic victory over the balance of a stellar field. Miss Cummings bettered par by two strokes with her card of 83, which was seven under that of her nearest competitors, Miss Doreen Kavanagh, and Miss Margaret Cameron, each of whom scored 90.

Miss Mary Browne had a card of 91, while Miss Rosamund Sherwood of Philadelphia finished last among the scratch players with a 92.

In spite of a cold wind which persisted for the first 9 holes, Miss Cummings seldom varied from par, only indifferent putting in the early part of the round keeping her score from being sensational. Her long shots were excellently figured in regard to the disconcerting wind, and her approach throughout was little short of perfect.

She was out in 42, women's par for the first nine, and returned in 41. Miss Browne scored 44 on the outward trip, but lost her chance to give Miss Cummings a run by high scoring on several holes on the way in.

Miss Sherwood gave the gallery a few lessons in the use of the masher, playing her approach shots in masterly fashion.

The cards of the low scores follow:

Player	Score
Edith Cummings	83
Doreen Kavanagh	90
Margaret Cameron	90
Mary Browne	91
Rosamund Sherwood	92

Dr. E. R. Campbell, a Midwick member, offered three handsome prizes, a handsome traveling case, going to Miss Cummings for turning in the best gross score, while Mrs. Guy Cochran and Miss Joan Mickler won the two low net awards, a bar pin and a pair of cuff links. Each had net 18's.

Although thirty-six players of ten-handicap and under entered the tournament, only sixteen turned in their cards, the cold wind playing such havoc with scores that the rest of the field withdrew.

Results follow:

Player	Score
Edith Cummings	83
Doreen Kavanagh	90
Margaret Cameron	90
Mary Browne	91
Rosamund Sherwood	92

Expect Great Gathering at Tia Juana Track

(EXCLUSIVE DISPATCH)

SAN DIEGO, March 27.—Barren unsettled or stormy weather, San Diego will entertain one of the largest week-end crowds of the season; the principal magnet will be the running of the Coffroth handicap Sunday at Tia Juana. Extensive preparations have been made to handle the influx, the van-guard of which already has taxed the capacity of the principal hotels. The housing bureau of the San Diego California Club, co-operating with the Hotel Men's Association, will be in operation, starting Friday and continuing as long as necessary.

Officers of the club said today that reserve lists of several thousand rooms have been compiled, and that the housing bureau would be able to accommodate all who applied for rooms.

CARDINALS LEAVE TONIGHT

Bill Storie and Elmer Elliot Are Not Coming for Tomorrow's Meet With Trojan Track Team

(EXCLUSIVE DISPATCH)

STANFORD UNIVERSITY, March 27.—Well fortified in every event of the track and field, Coach R. L. Templeton, Manager O. H. Tucker and twenty-six runners, jumpers, weight throwers and hurdlers of all descriptions will board the Sunset tomorrow evening for Los Angeles and the annual dual meet with Dean Cromwell's University of Southern California Trojans.

Bill Storie, quarter-mile, who has been running the 440 yards in less than 50 seconds, developed intestinal trouble early in the week and is not with the squad. Harvey Coverly is taking his place and, with Ted Miller and Capt. Van Judah also ready to run the race, the Cards do not expect to lose much by Storie's absence.

Elmer Elliot, miler, could not get into condition this week, due to rain at Palo Alto, and he, too, is absent. But the Cards have two good men left in this event, also and they should not be downhearted.

The cold weather and continual rain of the last few days have not added to the Stanford prospects, but as Templeton's men have for the most part several months of fall and winter training behind them they should present a very good front.

BEST IN TEN YEARS

As predicted in early season the Cardinals now shape up as the strongest Stanford organization in ten years.

Following are listed the candidates Templeton will enter in each event, with their best performances of the present season:

100-yard dash—Hale and Campbell. Both have run in 16, but this year, though Campbell is not ordinarily that fast, he is 15.5.

220 yards—Hale and Campbell. Both have run 22 seconds this season. Competitive runners hereabouts all the points between Stanford and U.S.C. in the sprint.

440 yards—Biller, Van Judah and Coverly. Miller ran in 50 seconds last Saturday. Bill Storie, who is Van Judah's best competitor, is 48 seconds.

880 yards—Richardson, Macintosh and Bill Storie. Richardson ran this season in 1 minute 57 seconds, and the other two in 1 minute 55 seconds.

1 mile—Hale and Campbell. Both ran in 4:45 and 4:50.

2 miles—Hale and Campbell. Both ran in 9:45 and 9:50.

4 miles—Hale and Campbell. Both ran in 19:45 and 19:50.

Tennis Stars Resume Play at Ambassador Tomorrow Exhibitions Make Regular Matches Look Tame

BY BILL HENRY

Bill Johnston, Harvey Snodgrass, Howard Kinsey, Walter Westbrook and Ray Casey are going to get all their suppressed emotion out of their chests tomorrow and Sunday afternoons when the final play of the Hotel Ambassador tennis tournament will be staged for the edification of the pop-eyed populace of this vicinity.

The program as announced by Impresario Roy Nelson is as follows:

SATURDAY

2 p.m. Howard Kinsey vs. Walter Westbrook

3 p.m. Bill Johnston vs. Harvey Snodgrass

SUNDAY

2 p.m. Harvey Snodgrass vs. Howard Kinsey

3 p.m. Bill Johnston vs. Ray Casey (finals)

4 p.m. Snodgrass-Westbrook vs. Kinsey-Casey

If that isn't a program calculated to stir up enthusiasm in the breast of tennis fans, Mr. Nelson will gladly swallow a light lunch of ground glass and potassium cyanide and pass on to a spot where everybody gets in on a pass.

SWELL PROGRAM

As a matter of fact the program of events of an exhibition nature is so good that the final round for the Ambassador bowl, in which Bill Johnston meets Ray Casey, seems rather weak by comparison. Just about every one of the exhibition matches scheduled is a grudge contest in which players are seeking revenge.

Last summer, for instance, Howard Kinsey played Walter Westbrook back East and beat him 6-1, 6-0. Since that time Brother Westbrook has been sitting up nights with a slide rule and a book of logarithms figuring out a flock of new angles with which to fash-bagat Mr. Kinsey. Inasmuch as Westbrook took a set from Johnston in the semifinals of the tournament the chances are he can give Kinsey the run of his young life.

The same thing goes for the Johnston versus Snodgrass combat, which is also scheduled for tomorrow. Last week White drew with Silver in San Francisco, a boy who recently boxed to a draw with Dick Hoppe at Hollywood. This comparison will give the dopsters a line on White's ability.

Mushy Callahan, who, after a long lay-off, surprised everyone, including his manager, with a decisive win over Young Bello, tackled Frankie McCann in the semifinal. These boys have been ranked in another classification by Kennedy, the AA division. Two victories in the AA class advance a boxer to the championship division.

Young Papke, who with Sid Marks, stole all the thunder at Vernon Tuesday, meets Benny Berris, a newcomer, in the special event at 135 pounds.

Johnny Lamar, who boxed once at Hollywood under the name of "Philby" Lucas, meets Sailor Masterino, Pico Ramies and Toby Montoya, old rivals, renew their feud at 118 pounds. Red Williams and Hank Gatton meet at 155 pounds, and Sailor White will open the show against Harry Foley at 123 pounds.

FINISH FIGHT AT TIA JUANA

Champ's Manager Will Confer With Coffroth Sunday Dispute on Date of Battle Not Yet Settled

BY A. P. NIGHT WIRE

OMAHA (Neb.) March 27.—Jack Kearns, manager of Jack Dempsey, world's heavyweight boxing champion, expects to sign papers within a few days binding Dempsey to a match with Harry Wills, negro heavyweight contender, at Tia Juana, Mex., probably on Labor Day. Kearns declared today while he stopped here on his way west.

Kearns said that James Coffroth, Pacific Coast sportsman, would sponsor the bout and that it would be a "finish fight." Dispatches from San Diego quoted Coffroth in verification of Kearns' announcement but developed that the bout between Dempsey and Wills is not being considered now on account of "Firo's recent showing," but said:

"Wills is the man we want to meet—after we have collected some motion-picture shekels. And Wills is the man the people want to see meet Dempsey. This fight will net Dempsey and myself close to \$1,000,000, maybe more. We had our choice of a relative cash consideration for a twenty-round bout or a fight that will go down in history as marking something distinctive in modern ring annals."

Dempsey and myself have been stammered long enough. It's to prove that Wills looks no bigger to Jack than anybody else that we are willing and anxious to make this fight."

Kearns said Dempsey would not refuse the proposed Carpenter-Gibbons match and that "he will never fight Gibbons again unless the latter's next few fights prove he would be a good drawing card for a return match with the champion."

RACE TO THE L.A. FINN

Venice Mermaid Grabs Swimming Honors at L. A. A.C.—Duke Kahanamoku Wins Fifty-Yard Till

With a terrific spurt in the last twenty yards of a 100-yard race Thelma Finn of Venice grabbed the title of Pacific Coast champion last night from Helen Vernon, Ambassador, and Olive Hatch, L.A.A.C., in a close race in the Los Angeles Athletic Club tank. Miss Vernon looked like she would be the first one to the tape for the first thirty yards but Thelma Finn soon pulled from second place into first and grabbed the victory by a few inches. Helen Vernon was second and Olive Hatch third.

Duke Kahanamoku proved that he is still able to hold his own when he beat Reginald Harrison in a fifty-yard exhibition race in the tank time of 23.9-10s. Harrison started out like he was going to trim the Duke but on the turn, the latter got the lead and beat the Venice flash to the tape by a scant inch.

WATCH WEIGHT MEN

For performance of national importance watch Houser and Hartrant in the weights. Watch the hurdles as well for men who will be going fast later in the season.

IS TOO MUCH

Ray Kegeris of the L.A.A.C. proved too much for Tom Baker, L.A.A.C. in the 150-yard, back stroke race by beating him to the finish by a yard. The race was hotly contested for the first two laps but the easy style of Kegeris stood him in good stead and when he reached the tape he was well in the lead. The time in 2:50.2-5s. was exceptionally fast.

The L.A.A.C. relay team composed of Duke Kahanamoku, John Kahanamoku, Edwin Rawlings and Stanley Moss proved too much for Venice and Troyed in the

SPORT ALPHABET
Q IS FOR JACK QUINN
LADIES AND GENTLEMEN—THE SUBJECT OF "SPORT ALPHABET" IS JACK QUINN.
THE HOT STOVE LEAGUE LISTENS IN

The Hot Stove League—Sport Alphabet
Radio night in the Hot Stove League. The magnavox began, "Among the Q's in sport history were Tommy Quinn, the Irish prize fighter, and Quo Vadis, the French race horse. There have been Quitts and Billard Q's. But the fifth and most famous Q is our old friend Jack Quinn of Baltimore, New York and Boston. The name Quinn evidently came from the Latin Quinquus, meaning five. John was born on the fifth day of July, 1885, and the number five occurs in his record about fifty times. For instance, this right-handed spitball artist has pitched for five major league and five minor league clubs, and his winning per cent has been under 500 only five times. "He won five games for the Yankees in 1912, and for the White Sox in 1918, lost five for Macon in 1917, and five for the Yanks in 1919. In 1920, his fifth year as a pitcher, his per cent with Richmond was 1.000, proving Quinn to be the quintessence of pitchers and anything but a Quince. He will be 39 years old in 1924."

BASEBALL GOSSIP

While the Vernon Tigers and the Kansas City Blues are playing the third game of their series this afternoon at Water Park, Washington, Post will be the scene of a tilt between Joe Quinn's Shell Oilers and Harry Knott's Angels. Knott will give his youngsters a chance in this afternoon's game.

Local fans will get their first look at the Pittsburgh Pirates Sunday afternoon when the team pitches at Water Park. The Pirates, who are the only team in the National League to have a capable trio of southpaws, will be led by their ace, George Mullin, and "Burr" Arlett are right-handers not to be counted out. This team, which is signed up a number of points and should stay in the league, is expected to be one of the best in the National League.

HEAVY LOAD TO EXTERMINATOR

Veteran Distance Runner is Popular Favorite

Little Chief Given Second Weight for Classic
Twenty Entries Expected for Feature of Season

(BY A. F. NIGHT WIRE)
SAN DIEGO, March 27.—Weights were assigned late today to the twenty horses eligible for the \$40,000 Coffroth Handicap to be run at the Lower California Jockey Club track at Tia Juana next Sunday. The veteran runner Exterminator, from the stable of Willis Sharpe Kilmer, will carry the heaviest impost, 130 pounds. Exterminator, whose ability to run in heavy going is well known, was a favorite before last night's heavy rain drenched the track, and is expected to go to the post the public choice. He will be ridden by Jockey Albert Johnson who was brought here especially for the race.

Next to Exterminator, in the judgment of the racing secretary, came Little Chief of the Humphries stable, for which the trainer is Harry Unna. Little Chief will carry 125 pounds. Runner of the B. Sprackles string and owner of the Leslie stable will carry 123 pounds each. Cherry Tree, brought here from New Orleans by Baron Long, will have 117 pounds impost.

Weights were assigned to more than thirty eligible horses. It was decided today that about twenty horses would go to the post in the big race of a mile and quarter. The horse who wins will draw down about \$45,000.

BLUES DEFEAT TIGERS AGAIN

(Continued from First Page)

vented Vernon from scoring in the ninth inning. Deal left off by beating out an infield hit. Blackley sacrificed Charley to second. Griffin walked. Here's where Old Man Hard Luck entered. Gillespie hit a hard one toward right that looked to be a certain single, but the sphere bounced right into Wes Griffin's pants, automatically putting the Tiger infielder out and making it a dead ball. McDowell was safe at first, but Deal had to go back to second. That made two out, so Zinn got out of the hole by forcing Hannah to lift an ay to Brief in left field.

SALEDNA ON MOUND

John Saledna appeared on the mound for the visitors at the start of the tenth inning and he managed to subdue the Tigers in one-two-three order, numbering among his victims, "Pinky" Hernandez, who pitched for Penner. Frank Keck pitched the tenth inning for Vernon.

MAKES STAR CATCH

Mike Menoskey, the Tiger center fielder, won for himself a few cheers in the ninth inning when he came in fast on Manager Good's dinky fly and stabbed it with one hand right off the dais. Penner has the Blue swinging like well-oiled pendulums in the latter part of the game, whiffing ten batters.

NINE CLASHES AT L.A.A.C. THURSDAY

The arrival of a classy little amateur boxer from Salt Lake City induced Matchmaker George Blake of the Athletic Club to add another bout to the list arranged for next Thursday night at L.A.A.C. The newcomer is Clark Williams, a corking good record in Utah. He will meet Lightnin' Joe Salas, the club crack. This makes nine bouts on the card, the other scrappers lining up as follows:

VISALIA GIRLS' NINE VICTOR OVER EXETER

(EXCLUSIVE DISPATCH)
VISALIA, March 27.—The girls' baseball team of Visalia Union High School won the championship for the northern half of the Tulare County League by defeating Exeter by a score of 13 to 10 in a one-sided game played in Exeter. Miss Edith Lindsay, local coach, has been working the Visalia team hard for over a month. Veda Runyon and Florence Day were local stars, battling home runs, while several others made creditable showings at the bat.

WEBER VICTOR OVER BURRIS AT VENICE

Johnny Weber defeated Benny Burris in the main event of a fast card held at Venice Wednesday night. Burris put up a good scrap, but Weber carried too many guns. Jimmy Bartlett defeated Joe Rieck in the semi-main event. Lefty Cooper stopped Harry Turner in the fourth round. Joe Doody put Jim McGuire to sleep. Harry Foley boxed a draw. Kid Lewis knocked Kid Leonard in the second round of the opening.

When she travels

Women traveling alone or with children
prefer the famous limited trains of the
New York Central Lines—because the
standards of service on the restful water
level route are such as they are accus-
tomed to in their own homes.

Ladies' maids are in attendance on the
Twentieth Century Limited, the Lake
Shore Limited and the Wolverine—the
three de luxe trains in the New York-
Chicago service most favored by women
travelers. On the Century facial massage
and shampooing may be had in the bar-
ber shop in the club car.

The comfortable lounging room of the
observation car is an added attraction on
the Century, especially on the run along
the famous Palisades and through the
wonderful Highlands of the Hudson.

**HUSBANDS JOIN
IN WIFE TANGLE**

**Mother of Three Held on
Bigamy Charge**

**Third Mate in Making When
Court Steps In**

**Suspect Not Garrulous as to
Reasons for Conduct**

(EXCLUSIVE DISPATCH)
NEW YORK, March 27.—When, on June 12, 1918, Frank E. Larson, a mechanic, returned after a hard day's work to his home in Stamford to find that his wife and three children had left him, he didn't think it was quite right. But when he discovered that all the household furnishings were also gone, with the exception of a stove, one chair and a knife and fork, he was sure of it.

He didn't do much about it at the time—he was so stunned. But when, last December, Clarence C. Behr, another mechanic, came to him with the information that he also had married the woman and that she had deserted him, too, hubby No. 1 and hubby No. 2 joined hands, and when they found their wife there was hubby No. 3 in the making, for she was, they said, on the road to a third marriage. And she was still running to mechanics, too.

The upshot of the thing was that their wife was held by Magistrate Cobb in \$2000 bail to await the action of the grand jury on a charge of bigamy. She admitted the desertions, but didn't appear garrulous as to reasons. She wore expensive clothing, which added to her obvious beauty.

The Larsons were married in October, 1914. He said they were happy until her sudden defection. Six months after her desertion she wrote him from this city that she needed financial assistance for her and her three children—Ruth, 11; Dorothy, 7, and Harold, 6. He sent the money and from that time until last June there were fifty such letters.

In the winter of 1920 he made fifteen trips to this city to urge her to return to him, but she never let him see the children. She said "they were all right." Then he located them in a home in Stamford. Of all the money he had sent his wife he says none of it reached the children. He took his children out and removed to North Syracuse, where he still lives.

On September 18, 1923, Behr married her in the Little Church Around the Corner. Two months later she left. From some discarded papers he learned of Larson, and he joined in the hunt for her. Behr located her this week, and Hubby No. 1 came from Syracuse. In court they stood shoulder to shoulder and glowered at their wife, who just glowered back. The husbands left the courtroom arm in arm.

AWAITS ACTION**

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, March 27.—Suits for damages amounting to \$1,000,000, which was filed by the Warren Construction Company against the Sugar Pine Lumber Company and the Minnahan and Western Railway Company, allied companies, on account of differences over a contract in awaiting action by the United States District Court here.

The construction company claims that it entered into a contract with the defendants to construct sixteen miles of railroad track in Modoc county and that the specifications and estimates were thereafter arbitrarily changed by the defendants, entailing a more expensive construction plan than was provided for in the contract. The road was completed according to the complaint. Differences over payment, however, led to the Federal Court action.

Postoffice Men Declare
Harvey (Ill.) Robbery is
Near Solution

(EXCLUSIVE DISPATCH)
CHICAGO, March 27.—Thomas Tuohy and John Walsh, two of forty-three suspects taken by the police in connection with the \$180,000 Harvey (Ill.) mail robbery, were turned over to the Federal authorities by Judge Lindsey in the Criminal Court, where they appeared on writs of habeas corpus.

John D. Rooney, chief of the bureau of investigation, Department of Justice, announced that Tuohy had been identified as one of the band who beat an aged watchman and escaped after a 7-mile pistol battle with registered pouches containing cash for several large pay rolls. Walsh, Capt. Rooney declared, in reality was John H. Reid, a fugitive from the Federal prison at Atlanta, Ga. Meanwhile, Chief Postoffice Inspector A. E. Gerner said that the solution of the robbery was only a matter of hours, and intimated that the four bandits who participated were already in custody. The hardest task, he said, would be to find the tipster who informed the bandits of the currency movement.

WARNS ENGLAND OF RED INTRIGUE

MacDonald Told Moscow is
Fomenting Strikes

Charge Made by Bridgeman
on Commons Floor

Sees Bolsheviks Desire to
Start Revolution

BY JOHN STEELE
(BY CABLE-EXCLUSIVE DISPATCH)

LONDON, March 27.—A sharp warning to England's first Labor government that the regular procession of strikes which have occurred since Prime Minister MacDonald assumed power were the result of Moscow's machinations was delivered in the House of Commons last evening by W. C. Bridgeman, former home secretary.

Mr. Bridgeman, who served in former Prime Minister Baldwin's short-lived Cabinet, being at the head of the entire police force of the country, including Scotland Yard, was in a position to gather valuable material regarding the Bolshevik activity.

The former secretary warned the Labor government that the Bolsheviks in England were its greatest enemies since they were bent on showing British labor leaders that the constitutional methods the latter have adopted for enforcing radical reforms were productive of no good and that nothing could be accomplished except through the violence of a revolution.

"There are many who thought that with a Labor government in power we should not be bothered with as many industrial disputes as formerly," Mr. Bridgeman said. "I am sorry that that hope has not been realized. Stoppage has followed stoppage in series in most disquieting regularity and to the great detriment of the people and trade of the country."

"It would be foolish not to take into account the effect of the propaganda of the Third Internationale and their emissaries. These missionaries of Moscow are working very hard in this country to foment trouble wherever they can and to encourage unrest and dissatisfaction. One of their objects is to undermine the regular authority in our trade unions and those who lead them. They are the greatest enemies that the present government has."

"Their object is to show that the constitutional practices which the government is following are of no use and the only way is recourse to violence and revolution."

Tom Shaw, minister of Labor, replied in a pacific tone, ridiculing the idea that the present labor disputes are the result of Moscow's propaganda since their causes were laid months ago before it was ever thought that the Labor government would come into power. He said the Cabinet was working hard on the settlement of the London traffic strike, seeking a compromise that would be acceptable to both the companies and employees. He appealed to every one not to get rattled if progress appeared slow.

RUSS STRONG WOMAN ARRESTED AS SLAYER

RIGA, March 27.—Baroness Kaulbar, known as the strongest woman in Russia, has been arrested by the Petrograd cheka on a charge of murdering a 16-year-old girl named Alexa Yeva, according to the Moscow Investia. The Baroness is said to have lured the girl into a cellar and chopped her head off, dismembered her body with an axe and buried the pieces. Jealousy is given as the motive. Before the revolution the Baroness created a sensation by performing strong man stunts at society dinners. Her favorite feat was juggling a hundred-pound weight above her head with one hand.

RICHES LOCATED ON COCOS ISLAND

VANCOUVER (B. C.) March 27.—Reports were received from Panama that Capt. C. Polkinghorne, of the steamer Gunner, has succeeded in finding the famous Spanish treasure of Cocos Island. Capt. Polkinghorne left here a month ago. With him were five friends who had formed a syndicate to try and locate the Island treasure. Two of the syndicate remain at home, and it was from them that the information was received that the expedition had been a success. Just how much gold and plate the captain obtained could not be learned. The Cocos Island treasure is reported to be worth many millions.

SPECTATORS OUSTED FROM DIVORCE COURT

JUDGE TELLS CROWD HE IS
NOT RUNNING BILL OF
VAUDEVILLE

BROOKLYN (N. Y.) March 27.—Curiously mongers who habitually crowd the Brooklyn Supreme Court to hear testimony in undefended divorce actions flocked too thickly into Justice Aspinall's courtroom. Without forewarning, Justice Aspinall, crimson with indignation, glared at the crowd and said loudly:

"Get out of this room! Go down the street and see Gloria Swanson in 'The Passion Flower.' We're not running a vaudeville house here. Don't stand there in the back of the room. Come on, officers, get busy. Put them out. Shut the door and keep it shut."

As the men and women crowded the doorway in exit, he hurled a parting shot at them: "You come in here for a free performance. Let this be a lesson to you. Don't come back." And the trial of the divorce suit brought by Mrs. Marie M. Hockley, Brooklyn, against Frederick S. Hockley, proceeded.

BABY FIGHTS HUGE RAT ON NIGHT FORAY

Mother Awakes to Find
Infant, Badly Bitten, Re-
pelling Rodent

(EXCLUSIVE DISPATCH)

NEW YORK, March 27.—The agonized cries of her baby girl, Patria, awakened Mrs. Marie Unianian, of 25 Front street, at 3 o'clock in the morning. The entire family, her husband, Pedro, and their three little children sleep in the front basement. The baby, 3 months of age, was in a cradle near the bedside.

By the dim light of a kerosene lamp the mother saw a huge rat on the child's chest, and the little one was instinctively giving battle to the rodent with her tiny hands, one of which was bleeding from wounds on three fingers.

Mrs. Unianian shrieked, and her husband sprang up and rescued the baby. The rat turned to give fight and then disappeared. It had clawed part of the child's upper lip and three of the little one's fingers were badly lacerated where the rodent had bitten them.

The uproar awakened other tenants in the house and attracted the attention of Patrolman Gels of the Poplar-street station, who sent a call for an ambulance. Surgeon Schlossman of the Cumberland Street Hospital dressed the baby's injuries.

The rat was described by the father as unusually large.

"Yes, Madam, we really mean
Linoleum for your Living-Room"

It's Jaspé, the New Armstrong's Linoleum Floor
TWO things have been done to linoleum that make it suitable for the floor of your living-room, or any other room.

First, the colors and designs of new, modern linoleum are different, and better than you can believe until you see them. Second, a way has been found to lay linoleum without tacks that makes it a smooth, permanent, water-tight floor without visible seams.

Among the new kinds of Armstrong's Linoleum are the Jaspés. These are beautiful, rippling, two-tone effects in brown, gray, blue, and green. Jaspé floors can be selected to harmonize perfectly with walls and furniture, and your rugs are even more attractive when spread upon them.

With a floor of Armstrong's Jaspé Linoleum, the color harmony of your room builds itself up naturally and easily. The floor aids your decorative instinct instead of thwarting it. You can select curtains, shades, draperies with a sure eye to just how they will combine or contrast with the floor, which is always the foundation note of a room.

How fine linoleum should be laid

The modern way of laying linoleum has two objects—beauty and permanency. A lining of builders' deadening

felt is first pasted to the wood underfloor. The experienced linoleum layer cements the linoleum to this felt, closely joining and waterproofing the edges and extending the linoleum to the moulding round the walls.

Then, no matter how much your wood floor expands or contracts in summer or winter, the linoleum doesn't crack, doesn't stretch, doesn't need retrimming.

Naturally, cementing linoleum down costs more than tacking, but such a floor is always smooth and tight, and if waxed occasionally will stay fresh and looking for years and years.

Four wells which struck an average of more than 500 barrels of oil production each were added to the string of producers in the Torrance field yesterday.

The Petroleum Securities Company (Pan-American), placed its Torrance No. 15 on production with a flow of 400 barrels a day.

This hole is on the southwest edge of the Torrance field. It makes production possibilities in that area look decidedly good.

The Standard Oil Company completed its Torrance No. 4 on production with a flow of 620 barrels a day from a depth of 374 feet.

The Chandler-Candell Midway Oil Company finished the Torrance No. 36 at 375 feet and is now producing at 1250 barrels a day.

The Fortuna Oil Company completed its Torrance No. 35 at 375 feet and is now producing at 1000 barrels a day.

It was reported yesterday that the Petroleum Securities Co. 38 and the Chandler-Candell's Torrance No. 35 are now doing 1000 barrels each a day.

Drilling Again
Reports from El Segundo last night were that the Torrance No. 1 wildcat is drilling again after having recovered twenty stands of drill pipe which were lost in the hole on Monday. The well is reported to be showing promising indications.

Special Meeting Called
Pointing out that the Standard Oil Company has reported a showing of oil in a wildcat well which it is drilling on the Torrance field, the Torrance No. 15, the Standard Oil Company called a special meeting of its Torrance No. 15 stockholders at 1:30 p. m. today.

The Standard Oil Company and other companies have made application to enter into additional leases for other land owned by the company, and the board of directors now has under consideration the making of these additional leases. The board of directors, after careful consideration, have decided that before making any additional leases, they desire to present the matter to the stockholders.

On the 7th inst. the Standard Oil Company reported to the investment company that its wildcat well had reached a depth of 1077 feet, and that there had been streaks of sand and showings of oil and gas from 992 to 1077 feet, with sand showing oil and gas between 1021 and 1077 feet.

Well Comes In
Messers. Knight & Son's No. 1 well in the Signal Hill field started flowing into the Torrance No. 15 well yesterday. The well is now producing at 1000 barrels a day.

New Campaign Planned
Workman, Baker & Davis, Los Angeles oil operators, are to shortly begin drilling in the Torrance field. The well is now producing at 1000 barrels a day.

Flow Holds Up
The Kendon Oil Company's deep test well in the Hovey Hills is flowing 210 barrels per day after having been on production for three weeks, according to officials of the company. This well is 2600 feet deep, and is said to be a semi-permanent pump being necessary to articulate the oil.

Officials assert the hole was still in sand when drilling was suspended, and that the well probably will flow unaided after it has been drilled deeper. The casing is perforated from 1500 feet, where oil-bearing shale was found, to the bottom of the hole.

In spite of the depth of the well, no water was encountered, and it was not necessary to set any water string.

Shut-off Approved
The Elk Hills Development Company, which is drilling a wildcat well off-shore the southwestern portion of the Elk Hills naval reserve, has made a successful shut-off at 1512 feet, according to officials of the company, who report some oil was shown during the drilling. The well is now drilling ahead, coring every few feet.

Enters Hovey Hills
The Transport Oil Company has purchased forty acres in the Hovey Hills field, north of the E. C. Lewis eighty-acre tract, according to officials of the company. Preparations are being made to start drilling immediately, using motor-driven cable tools, it is said.

Mr. Lewis is reported to have struck an oil sand at 80 feet in his well in Hovey Hills. His tract is located in the western portion of the field, and was considered unproductive territory. The well is now down 1100 feet, it is said.

Crude Output Drops
The grand total production of crude oil in the United States for last week fell about \$1,000,000 barrels as a result of a 4900-bar-

Capital, Labor Join Hands in Big Financing

(EXCLUSIVE DISPATCH)
NEW YORK, March 27.—Capital and labor joined hands for the first time in the marketing of securities on a large scale, it became known tonight, when an announcement was made that the National City Company of New York and the Brotherhood of Locomotive Engineers' Cooperative National Bank of Cleveland are jointly offering \$3,500,000 international and Great Northern Railroad company first mortgage, thirty-year, 4 per cent gold bonds, Series A, at 97 1/2, to yield 4.38 per cent.

The bonds are part of an issue dated July 1, 1922, due in 1952. The offering does not represent new securities of the railroad, Graham Adams, who is supervising the investment and bond-distribution activities for the affiliated labor banks is representing the brotherhood's bank in the joint offering here.

It is pointed out as significant that the largest bank in the country should join forces with labor in a constructive effort to create more harmonious relationships between two elements.

Deposits of the brotherhood bank are said to exceed \$34,000,000. More than 86 per cent of these are persons not members of the labor union.

Practically all the deposits are savings accounts. The bank restricts dividends on its capital stock to 10 per cent.

Wool Exports FEATURE MARKET

(EXCLUSIVE DISPATCH)
PHILADELPHIA, March 27.—With domestic demand light and buyers filling only their small immediate needs, the wool market is turning its attention toward the possibility of re-export of foreign stocks held here in bond.

Contracting in the West has been confined to some Arizona clip at firm prices. Wool is still in good demand, though the scarcity of supply has been trading to very narrow limits.

Some fair-sized sales of bonded foreign wools for re-export held in this market are confirmed, though the exact poundage is not divulged. The local traders, while reticent on exact figures, say large clearances may be seen from Philadelphia in the next few weeks.

It is estimated by a Boston factor that 25 per cent of the normal imports have been received to date, and of this total half are being re-shipped because of better demand abroad. Yet goods manufacturers appear indifferent to the short supply, admitting that a concentrated call for any grade of wool will bring the market sharply above par.

BOND QUOTATIONS

PRICES WAVER
(BY A. F. NIGHT WIRE)
NEW YORK, March 27.—Unsettled by the break in stock prices, bond values wavered uncertainly today, although early strength in a number of speculative railroad issues was well maintained. Profit-taking canceled recent gains made by a variety of bonds in other sections of the list.

A buying wave which broke out in the last hour of trading swept most of the St. Paul obligations into new high ground.

Florida and Illinois 4s also attracted a brisk demand as a result of favorable earnings, and advanced 1/2 point.

Heaviness developed in most of the industrial bonds.

The underpinning of the market was improved by the quick sale of the \$38,000,000 Western Electric debenture which were four or five times over subscribed.

The first disbursement of the bonds deposited under the Mexican debt readjustment plan will be made immediately by the international committee of bankers on Mexico.

More than 80 per cent of the bonds affected by the agreement have been deposited.

Following are closing quotations on bonds listed on the New York Stock Exchange, furnished by Lewis & Clark, Inc.

Complete

If a security possesses all of the desirable elements of an investment, it is complete within itself.

The Street Improvement Bond combines the three essential elements of a successful investment—Safety, Diversity of Security, and Satisfactory Yield.

Safety is assured through tangible security which can be definitely estimated. It is the land itself against which the bond is issued for an improvement that will enhance the value of this same land. The appraised value of the security is many times the amount of the bond.

Diversity of security is afforded by selecting the bonds from different locations in the city and from various cities in the State.

The yield of 7% with complete tax exemption and ample security is manifestly a satisfactory return.

These desirable qualities we feel constitute the epitome of a satisfactory investment.

of Interest to Women

THE LAST WORD.

BY ALMA WHITAKER

HER CAREER

Every so often I get submerged in one of those "Should Women Have Careers?" debates, in which women earnestly weigh the pros and cons, and lavish quotations are made from "This Freedom" and "Bread," and all the women who have or want careers defend them magnificently and the rest "regret" and "deplore" and mournfully foresee the abolition of the home and all the next generation of children going direct to the devil.

But in all these controversies, even the ardent defenders of the faith express a tender consideration for hubby. The only difference is that the careful ladies insist they can administer just as righteously to the rights and privileges of hubby as the opposition consider they jolly well ought to.

I have never yet heard any rash female assert that hubby's rights and privileges are of no particular account.

You see, the general and accepted assumption is that every husband wants and loves a home and all the nice, snuggy ideas that go with it, including first-class housekeeping, good cooking, nicely behaved and properly disciplined children, capable mending and social charm.

So that the careful ladies are put on the defensive and the wife proves that they can take care of these little matters to the complete satisfaction of all concerned and pursue their giddy careers as well.

Of course, actually the day has passed when anyone can scornfully decide off-hand that women with marital appendages should not have careers. Even if G. E. Chesterton does automatically rise to remark that "I am an absolute reactionary where women are concerned." Or even if a few bossy husbands here and there can enforce their pleasure. And it is getting worse (or better) all the time.

Most of the girls in high school or the young ladies in college, and even the daughters of the stylish in private schools are training for careers. And incidentally most still think of the quite feminine enough to equally consider acquiring a husband.

You see, it has been sort of noticed that even the worriers of husbands can become incapacitated or die off precipitately without having exactly made suitable provision for the family upkeep—and in a case like that wifely finds a career very handy. In fact, without one, and nothing but a mere knowledge of home making, she is quite apt to be reduced to being somebody else's servant. Even the most feminine of wives still hold quite a prejudice against that sort of a demerit.

But really now men are not the only sex with home ideals. Even the most careerful of females has quite a weakness for a home, too. She, too, likes to come home to good housekeeping and a nice dinner and clean, good children and have all her mending done for her and cosy things like that. It is quite easy for us to sympathize with men on this score. But thus far, no matter how ostensibly fifty-fifty the home with a careerful mother may be, it remains an accepted theory that mother must attend to all that side of the family affairs. And really, to her honor be it remarked, she does it surpassingly well. So far, she has jolly well had to, to justify the career.

But I can see where it would be infinitely better for father's character development in a home of that sort if the fifty-fifty covered the whole field. If father really loves that home and is so exercised about the future of the children, these careerful wives offer wonderful opportunities for hubby to exercise his considerable interest and manfully, heartily, shoulder half the home burdens.

I was reared on the tradition of the superiority of the male. Very heartily I concede it. But the dears never really had an opportunity to prove it before. He hadn't any feminine competition to speak of in his business and professional life and things were always made amiably comfortable for him at home. If they weren't, we all knew who to blame.

"STELLA" IS RETURNED TO EXHIBIT

Painting of Nude, Hidden in Dark Closet, is Again Placed on View

By a "Times" Staff Correspondent
PASADENA, March 27.—The dark mystery of the locked closet was solved today. The painting of a nude woman known as "Stella," declared too daring to be shown to the Pasadena public, was brought to light and hung on the walls of Pasadena's Carmelita Park fine arts exhibition.

It was on the opening day of the Jubilee Year exhibition that the painting was stripped from the wall and locked in a dark closet. When it was learned that Pasadena could not see "Stella," there immediately sprang up an unmistakable protest.

Mrs. Bertha Calkins, who has charge of the exhibition, was besieged with a multitude of questions: "Where's 'Stella'?" Today the committee that barred the painting from the exhibition secretly unlocked the closet and rehung the picture. A sign posted on the closet door read:

"The Mystery Closet. Find 'Stella.'"

Any way, "Stella" may be seen at the Carmelita Park exhibition from now on.

Settlement of Spanish Troupe Contract Today

To what extent contracts made out in Spanish to several members of a vaudeville troupe are binding upon Nely Fernandez, Spanish dancer who has recently been touring the country as head of the company, will be decided today by Deputy Labor Commissioner Barker.

According to the complaints filed by members of the troupe with the commission, return transportation to Mexico was to be furnished the players after the vaudeville trip had been concluded. Miss Fernandez contends, however, according to Commissioner Barker, that no such promise was made and it is only a ruse on the part of the players to remain in the United States.

Among those who have signed complaints against the dancer are Rafael Diaz, her dancing partner, and Jardona Canto, orchestra director for the troupe.

Some time ago Miss Fernandez is understood to have brought an entire opera company from Mexico. After their engagements had been fulfilled several players were dismissed and the remainder formed into the vaudeville company.

Those who were dismissed complained to the Labor Commission. Mr. Barker said, because they had no money with which to return to Mexico. Through the co-operation of the Mexican government, the State Labor Commission and Commission of Immigration and Housing, transportation was furnished them, according to the commission.

SUSPECT IN STOCK DEAL IN CUSTODY

Man Arrested Accused of Defrauding Pair Out of \$3075 in Complaint

B. R. Parrott, of 1601 South Magnolia street, was taken into custody yesterday by Chief Deputy District Attorney Raymond of the charge of obtaining money under false pretenses. The complaint was issued by Dep. Dist. Atty. Glover on the 22nd inst., at the instance of H. A. Wallace and Pearl Wallace, who declared that Parrott had defrauded them of \$3075 during the month of April, 1933, in deals in Pacific Corporation stock.

Parrott held a long consultation yesterday with Chief Deputy Charles Fricke, and at the conclusion the prisoner was taken to Raymond's office to await the arrival of his attorney from Riverside. The attorney, according to Parrott, would bring with him documentary evidence of a conspiracy by certain Long Beach capitalists to defraud investors in oil stocks. Parrott asserted that he had been defrauded of some \$20,000 by the combination.

Mr. Fricke said that there was no likelihood of a grand jury investigation of Parrott's charges unless he could obtain further corroboration.

Mr. Raymond was assisted in the case by Assistant Captain of Detectives O'Brien and Detective Lieutenant Hawtry.

FILES FOR DIVORCE

Mrs. Abigail Hogan, suing Barton Davis Hogan, for divorce, declared in a complaint filed yesterday that her husband is living with another woman in the city.

Be Sure that the canned beans You eat are BAKED beans

Real oven-baking is what makes beans best to eat and best for you.

Boiling and steaming cook away most of the bean flavor that tastes so good and most of the bean nutriment that is so good for you. Baking retains them and improves them.

You can be sure that the beans you eat are really baked in ovens if you specify **Heinz Baked Beans**. The label says they are baked.

"A Plated Article"

by
Charles Dickens

Under this title the noted English author wrote one of his most fanciful, yet vividly clear sketches, describing the manufacture of English China. He gives an insight into the methods which were first developed in England in the eighteenth century and which finally established English China as supreme throughout the world.

You will find in our China Department products from the very potteries which Dickens visited to obtain his material. Such eminent names as Wedgwood, Coalport, Royal Worcester, Royal Doulton and Copeland all come under your eye in an inspection of our collection—an inspection you are cordially invited to make.

Visitors Welcome.

LASKY'S PLANS
BIG PRODUCTION DRIVE IS TOLD BY HEAD

By Grace Kingsley
Inauguration of a period of production activity entirely unprecedented in the history of the Famous Players-Lasky Corporation was announced yesterday by Jesse L. Lasky, first vice-president of that organization, on his return to the Lasky Studio from New York City.

"We are launching this tremendous drive," said the head of Paramount's production department, "to properly prepare for what we confidently believe will be the greatest season ever enjoyed by the motion-picture industry."

"Never since the day when I first decided to cast my lot with the pioneers of the photoplay have I been so enthusiastic as I am today not only over the healthy prosperity facing the industry as a whole, but also over the high standard and number of motion pictures scheduled for release and production by this corporation."

"A large part of my time in New York City was spent with Adolph Zukor, president of our organization, and R. R. Kent, general manager of distribution, working out the details of the most elaborate program we ever have attempted. We set about carrying out our determination to give the exhibitors of America the greatest product in our history, and my enthusiasm is founded on my belief that we have succeeded."

"We have marshalled new stars of undoubted popularity, new directors of ability, new writers and scenario writers, and additional supporting artists. Our good fortune in obtaining all these has exceeded even our expectations. I am not able to announce all of these acquisitions now; in fact, the announcement I can now make only scratches the surface of what will be made public at our annual convention of our department of production units will be actively at work at our two studios."

"Thirteen of these units will be operating at our Hollywood studio, the remaining five at our Long Island plant. Early in the summer the units will be added at Long Island, taking that producing center to capacity."

"Cecil B. De Mille will start in the near future on his forthcoming production of 'The Sign of the Cross,' in which Rod La Rocque will be one of a cast of unusual strength. Beulah Barrie Dix is now at work adapting Margaretta Tuttle's story to the screen."

"Having this week completed 'The Enemy Rex,' featuring Betty Compson, James Cruze will turn his attention to Harry Leon Wilson's successful 'Merton of the Movies,' starring the Glenn Hunter, who has been appearing in the stage version of the story for many months."

"William De Mille, who has just started filming Clara Beranger's 'The Sign of the Cross,' will start 'The Sign of the Cross' with a cast which includes May McAvoy, Malcolm McGregor, Robert Edson, George E. Stone, Ethel Winters, Madge Radna, Charles Ogle and Ricardo Cortez, will follow this with 'The Sign of the Cross,' which stage success by Frederick Lonsdale, Mrs. Beranger has returned to New York to adapt this play to the screen."

"Dimitri Buchowetzki, the Russian director, will again direct 'The Sign of the Cross,' which stage success by Frederick Lonsdale, Mrs. Beranger has returned to New York to adapt this play to the screen."

"When George Melford completes his current production, 'The Sign of the Cross,' featuring Antonio Moreno and Estelle Taylor, he immediately will begin preparations for his following screen play, 'The Sign of the Cross,' adapted from 'The Sign of the Cross' by Arthur Stringer, which stage success by Frederick Lonsdale, Mrs. Beranger has returned to New York to adapt this play to the screen."

"The Man Who Fights Alone," which stage success by Frederick Lonsdale, Mrs. Beranger has returned to New York to adapt this play to the screen."

"The directors who are now in the East will return to the West Coast studios to begin work on the near future. Herbert Brenson, now producing 'The Mountbatten' at our Long Island studio, with Ernest Torrence and Arthur Q. Noyes, will come West to direct Thomas Meighan in 'The Alaskan,' James Oliver Curwood's story. Erville Van Dyke, now in Boston at the laboratory of Technicolor Process, where he is cutting 'Wanderer of the Westland,' which he recently filmed in full color, will return to the West Coast to produce 'The Sign of the Cross,' featuring Agnes Ayres. Arthur Stringer is writing this story with a theme of unusual timeliness, but beyond this information we are maintaining the utmost secrecy regarding this screen play."

Charmagne's Tomb
Provides Much Data
The opening of the tomb of King Charmagne in Aix-la-Chapelle, a city of Prussia, by the Persian government, furnishes the data for the filming of Mary Pickford's 'Dorothy Vernon of Haddon Hall,' which is now showing at the Million Dollar Theatre.

When the ancient tomb was opened it revealed numerous patterns of brocades and fabrics that were also prevalent during the reign of Queen Elizabeth, which is the period of the picture. Miss Pickford's research workers made an exhaustive study of the discovery in the tomb and the data they obtained is responsible for much of the authentic reproduction of the draperies and fabrics used in her production.

Pickford in Picture
Mary Pickford plays opposite Miss Pickford in this picture and the cast included Estelle Taylor, Courtney Pugh, Clara James and Marc MacDermott.

Barbara La Marr's Plans
Barbara La Marr is ill, confined to her home with an attack of pleurisy. However, she hopes to be well enough to start work on the script is under way in the offices of Raymond L. Schrock. Robert F. Hill, who directed Laura La Plante in 'The Sign of the Cross,' will direct the new picture. The star will be supported by Ruth Dwyer as leading woman, with Robert Homans, who played the part of supporting players. Harry Pollard will direct.

Herb Rawlinson's Next
"Dark Rainways," a mystery tale, will be Herbert Rawlinson's next vehicle at Universal City, and work on the script is under way in the offices of Raymond L. Schrock. Robert F. Hill, who directed Laura La Plante in 'The Sign of the Cross,' will direct the new picture. The star will be supported by Ruth Dwyer as leading woman, with Robert Homans, who played the part of supporting players. Harry Pollard will direct.

Robert G. Vignola is to direct a special series of productions for Metro.
Definite announcement of the signing of Mr. Vignola was received yesterday at the Metro studios in Hollywood from New York. Mr. Vignola is scheduled to arrive in Los Angeles in about two weeks and will make his pictures at the Metro studios.

No definite decision has been reached as to what his first story will be, but he is expected to decide before leaving the East.
With the signing of Vignola the Metro roster of directors whose productions will be released next season now includes Rex Ingram, Fred Niblo, Frank Borzage, Reginald Barker, Robert Z. Leonard, Victor Schertzinger, Hobart Henrich, Lloyd Ingraham, Edward Cline and Robert Vignola.

Divorce Court Scene to Precede 'Why Men Leave Home'
Anticipating the droilery of John M. Stahl's production, 'Why Men Leave Home,' which is based upon Avery Hopwood's stage success of that name, and which Louis B. Mayer will present at Loew's State Theatre next week, the management has arranged for an unusual prologue to accompany the feature.

This stage production will be in keeping with the nature of the picture and Fanchon and Marco are said to have outdone themselves in arranging it. It will be called 'A Jazz Day at The Divorce Court,' and all the characters during season will be treated in a humorous vein, the old adage, 'While there is life there is hope,' being kept in mind, for the incidental dialogue, which is Fanchon who have just arrived from the East and who will be featured in this act.

The Knickerbocker Synopsators have been selected to impersonate the divorce court jury with Ray Paige as the foreman.

CHARLEMAGNE'S TOMB PROVIDES MUCH DATA

A program of four one-act plays will be presented by pupils of the Martin Gutzman School of the Theater at the Majestic Theater this afternoon, the event to be counted as the students' examination.

Each of the plays is under the direction of Miss William Wilkes. The plays to be presented, in their order on the program, are: 'Thursday Evening,' by August Morley; 'Overtones,' by Alice Gertrude; 'The Sign of the Cross,' by August Morley; and 'The Sign of the Cross,' by Alice Gertrude.

The CLUNE BROADWAY
BY POPULAR DEMAND 24 BIG WEEK
Dorothy Vernon of Haddon Hall
Milton Sills and Anna Q. Nilsson
have the most exciting picture of their career. The story is laid during the days of the Texas oil-field discovery, a picture companion to Rex Beach's memorable story, 'The Spoilers,' which deals with the discovery of gold in Alaska.

COMPOSER AT ORPHEUM
Wouldn't listen to Ernest R. Ball warble his own numbers, both new and old. He will, at the Orpheum, for he is one of the all-star features on next week's bill. So is Alma Nielsen, the clever dancer, with her partners and band; so is Mitchell Lewis, who plays with his company in 'The Fog.' So is Frankie Heath, whose quartet of song stories is going to be most enjoyable. Also, 'Chic' Sale will remain for a third week of record for him, but demanded by popular request.

MALE FASHION SHOW
Carmel Myers and Richard Tucker, who are appearing in 'Beau Brummel' at the California Theatre this week, will be guests of honor at the Cinderella Room's 'Beau Brummel Night' this evening.

The evening's feature will be featured by a 'Men's Fashion Parade' showing the dandies of today. It is perhaps the only male fashion show ever held in the city, and as a consequence, is arousing much interest.

HOOT IN THRILLER
Hoot Gibson, who recently appeared in a picture called 'The Thrill Chaser,' is again engaged in that interesting pursuit. The coming week will see him on the Pantages screen chasing the elusive thrill in a fireman's helmet assisted by the vivacious Mildred June.

JEWEL THEFT REPORTED
Mrs. Edwin Rogers reported to the Wilshire police last yesterday that pameky burglars entered her apartment at 474 South Coronado street and obtained jewelry valued at \$2600. The plunder consisted of a diamond bracelet worth \$1000; a pearl necklace worth \$500 and a \$500 silver brooch studded with diamonds, she said.
